

Objectives of the International conference on Applied Internet and Information Technologies are aligned with the goal of regional economic development. The conference focus is to facilitate implementation of Internet and Information Technologies in all areas of human activities.

The conference provides forum for discussion and exchange of experiences between people from universities and research institutions, as well as practitioners from industry and government agencies.

Paper Submission and Registration

Papers must be based on unpublished, mature and original work. The review process will be double-blind peer review. All accepted papers will be published in the conference proceedings with ISBN.

At least one author of each accepted paper is required to register for the Conference.
